

San Benedetto del Tronto

This is a picture of San Benedetto del Tronto. The street you can see is called Lungomare. There are 25000 people in this town. The location is in the centre-east of Italy and the distance from the capital city is about 289km. My town is very popular in the summer for its night life, expensive hotels and the food but you can also go in winter and get to the mountains in one hour time for skiing and winter sports. The most expensive area to live is the centre. I live only 10 min from the centre where there are a lot of shops of clothes and jewels. There are some factories and a lot of fishermen. There are two primary schools but the major one is the G.Sacconi, we have three colleges, which are I.P.S.I.A., Liceo Classico and Liceo Scientifico. I went to I.P.S.I.A. for five years and after that I started to work in the Relax Hotel, one of the major ones. The popular sport in my town is football. We have lots of regional teams and my city is in the second division. Good luck!!!!!!

Well this is my lovely city. Let`s go there for trip.
