

MY TOWN GABILEY

My city is Gabiley, and the population of my city is about half a million.

The town is in the North West of Somaliland and if I want to go to the capital city it takes four hours.

In the west is where most of the people go to work and all the companies and industry are there. In the south are mountains and a lot of farms and lakes

In the east is where the capital is, and in the north is the sea.

The most expensive areas are in my town is JigJigayar and Hawaadleh and the cheapest area in my town is Nafarug in the south.

The place I live is call 26 June. The main jobs in my town are building and many more. The schools in my part of the town are Madrasah,s Primary schools, secondary schools, and a University. The school I went to in my town is call Sh. Bashiir.

The shops in my area are a shopping centre and a big market.

The sports facilities in my area are a basketball pitch and a sports centre.

There are a few gyms.

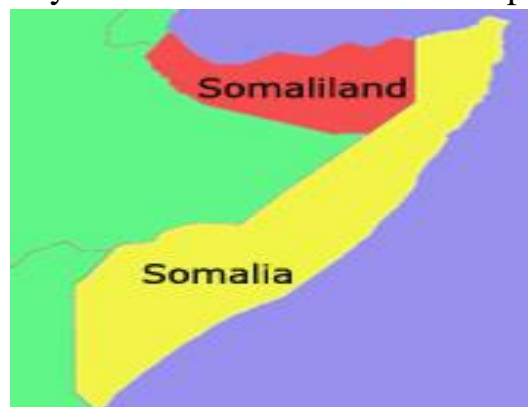

In My country is Somaliland not Somalia. They separated in 1991 and the former British Somaliland is an unrecognized country and people are tired because they have been fighting in the past 20 years. Now they have peace and the government always asks UN, US, EU, AU, and many more, to recognize them. That is the only thing they need. I hope my country is going to get recognition soon.

The flag of my country.

The map of my town.
