

# MY TOWN

I lived in Turkey. Ankara is a big city in Turkey. I live in the south of Turkey. I like my country because the weather is very nice. In summer it is 40 C. In winter it is very cold. Turkey is very dangerous because every year there are lots of accidents. 70 million people live in Turkey. In winter it is rainy and snowy. Now I live in London. I think London is very nice but the weather is horrible in summer. Some times it is very cold. Turkey to London is 3 hours by air. In Turkey the cheapest area is Ankara and the most expensive area is Istanbul. In my country there are nursery, primary secondary schools, colleges and universities. In my area the shops are big supermarkets, grocers, butchers and local shops. In my town there are 7 or 8 parks and 5 swimming pools.
