

## My town

This is my beautiful town **Navoi**. It is a small city in the south west of Uzbekistan . The population is 128,000. Navoi is 600 km from Tashkent.

In the north there are mountains. In the west of the town is the River Zarafshan. The Navoi region has metal, gold and gas. There are many industries and fertiliser factories. There are a lot of cotton fields in the region near the town.

The city has a park with a lake, where I used to swim. There are a lot of a comprehensive schools and nurseries and one teacher training college. The town has a few clinics and three big hospitals. Near my house there is a big market where there are people who sell fruit and vegetables from villages. There are also two supermarkets. There are a lot of sports facilities there. There is also an open swimming pool, a stadium and a big sports complex. We also have a football team called “Zarafshan”, the name of our river . The city has many sculptures and fountains.
